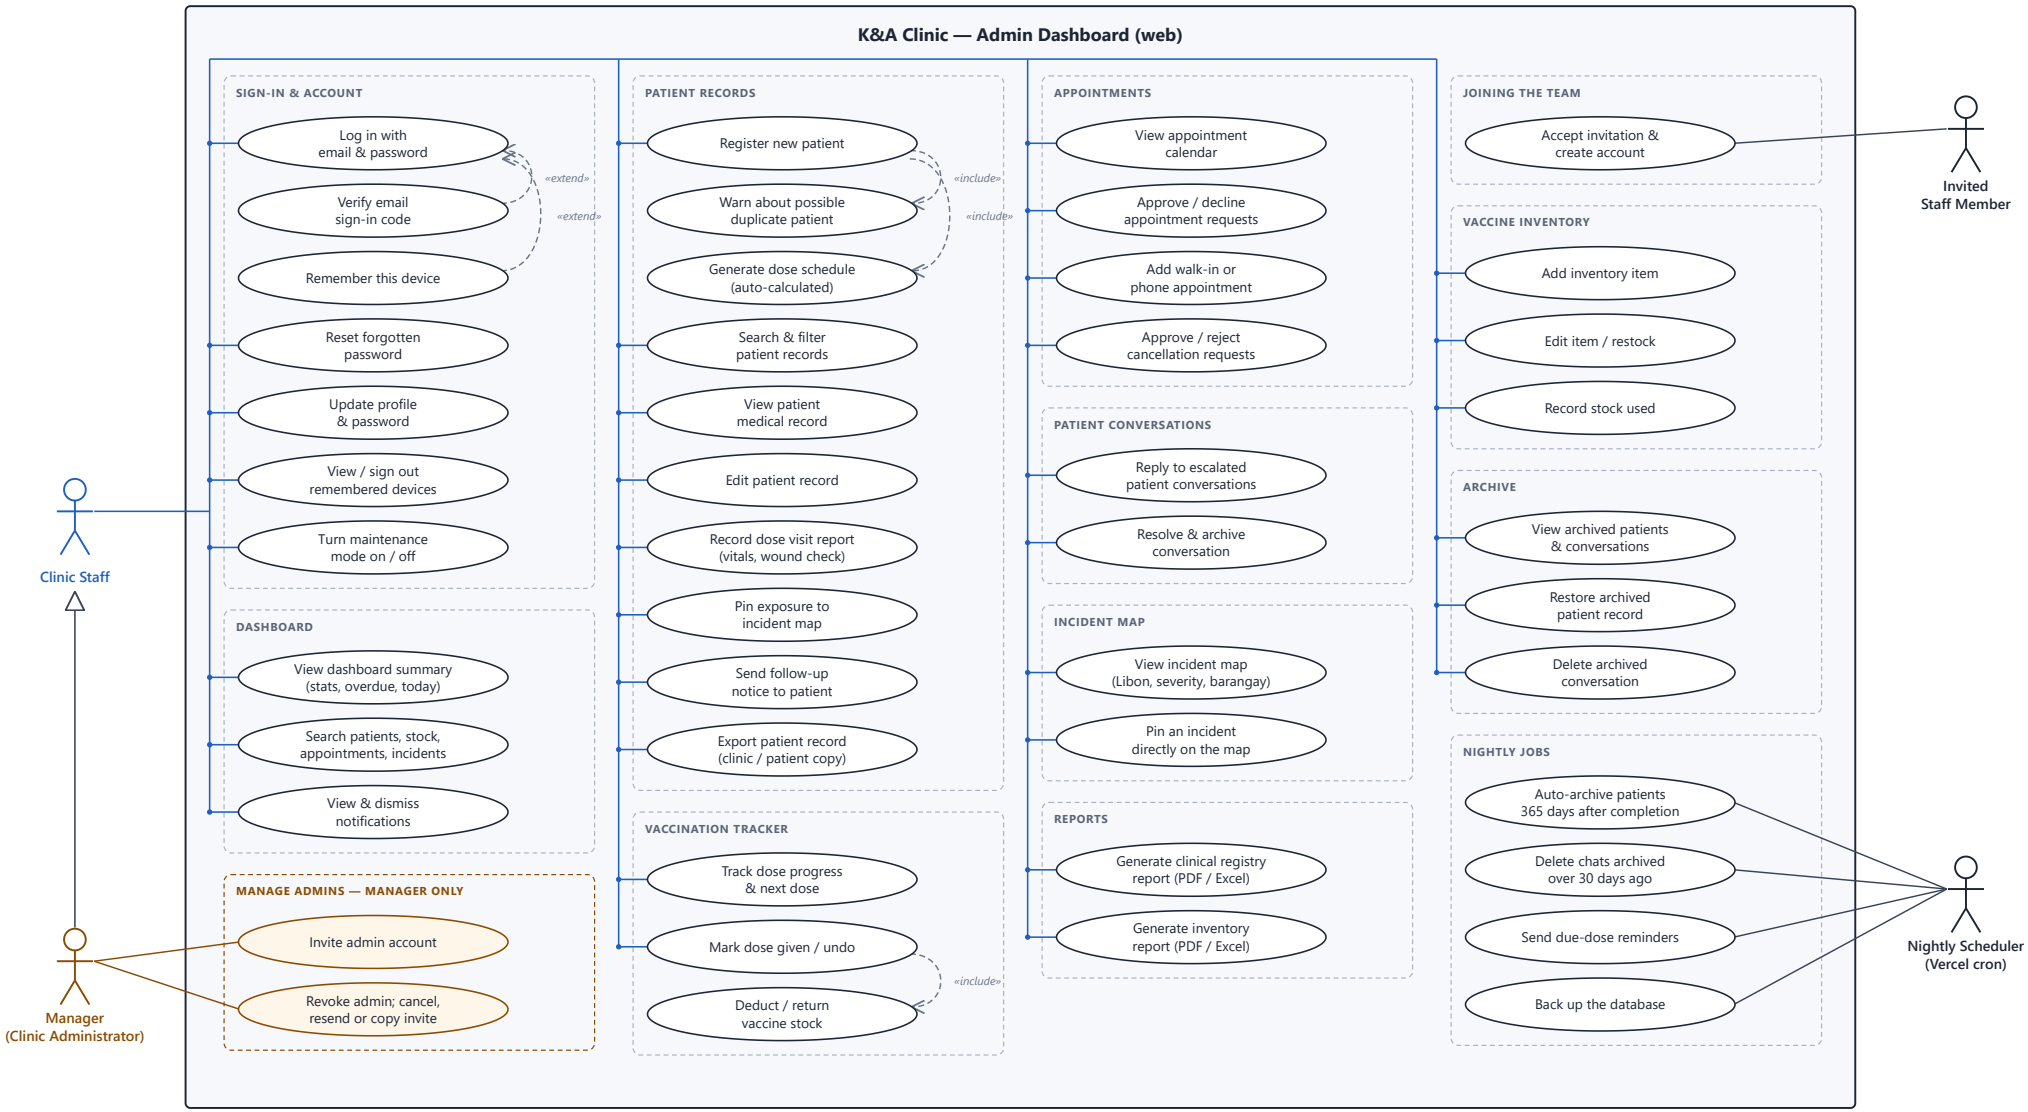

Diagram 1 · Admin / Staff — K&A Clinic Admin Dashboard (web)

4 actors · 46 use cases · verified against ka-clinic-admin/src and api/

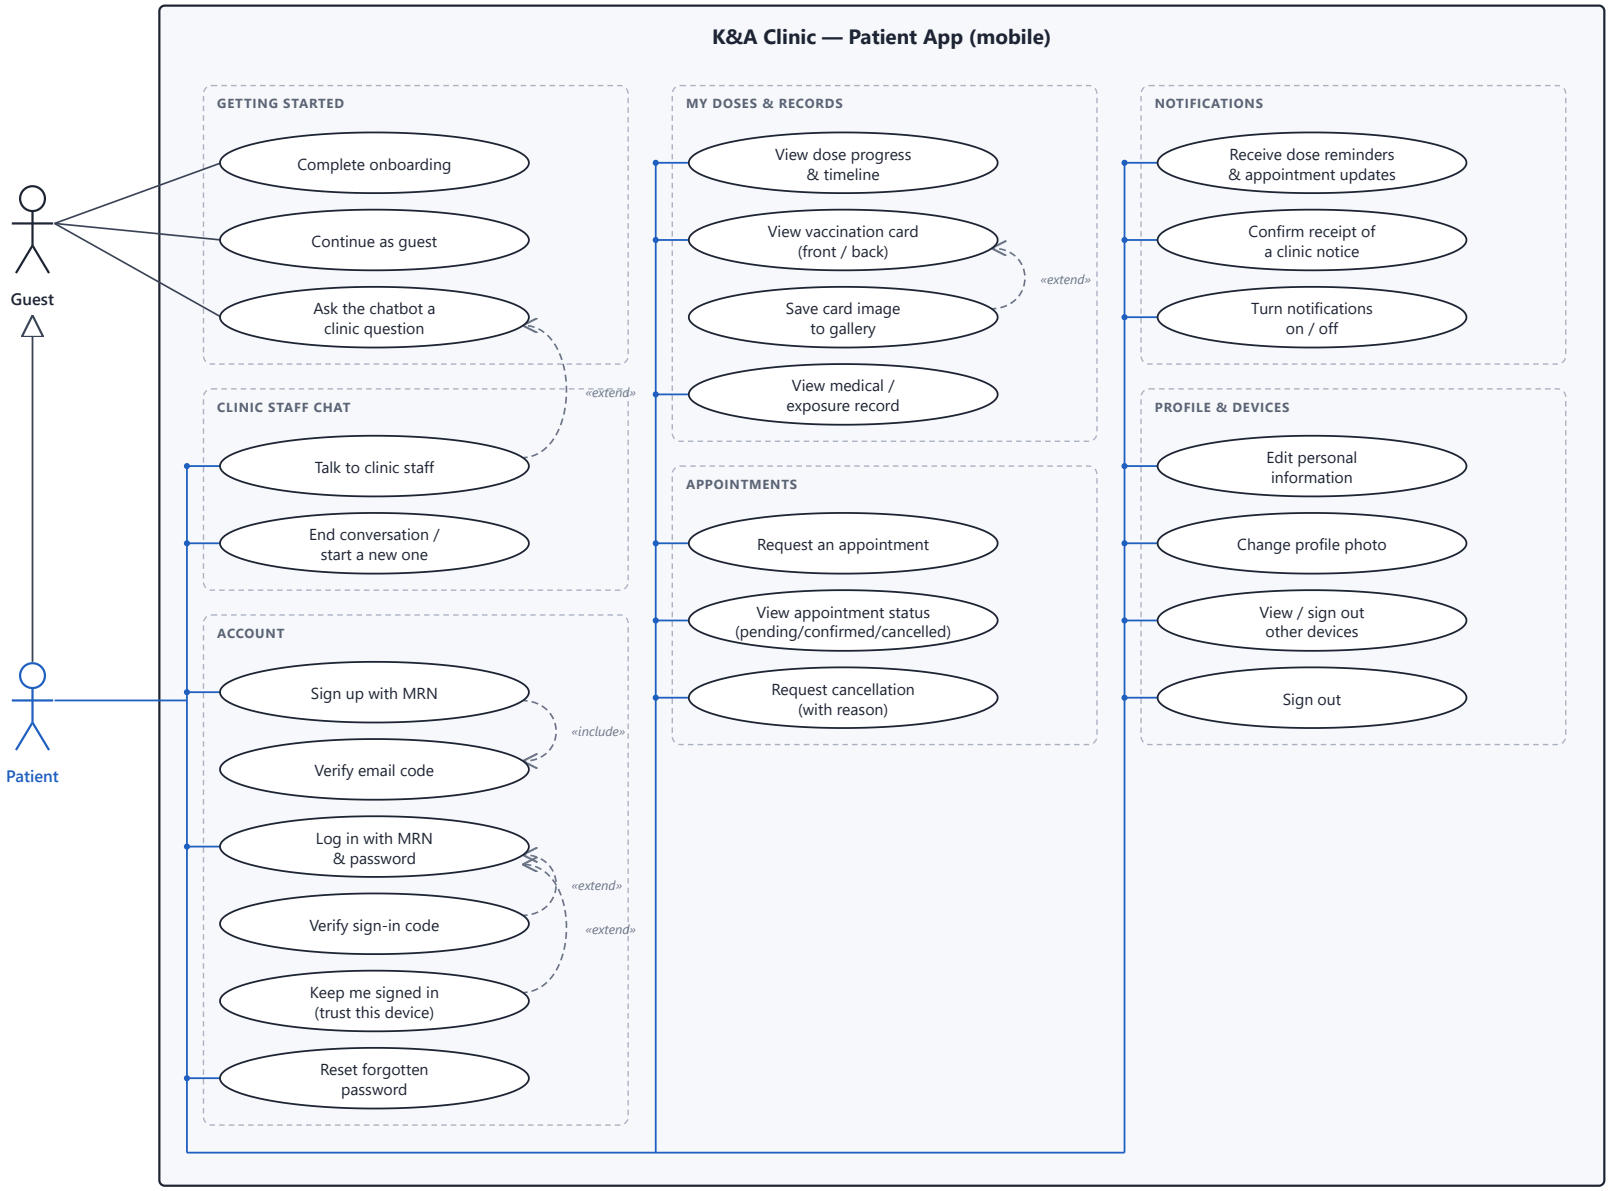

NOTATION

association (Clinic Staff) · association (other actor) · «include» / «extend» · generalization (inherits)

Manager inherits every Clinic Staff use case. Orange items are enforced as manager-only in the UI and on the server (requireActiveManager).

Diagram 2 · Patient — K&A Clinic Patient App (mobile)

2 actors · 25 use cases · verified against patient-app/app and api/

NOTATION

association (Patient) · association (other actor) · «include» / «extend» · generalization (inherits)

Patient inherits every Guest use case. Clinic staff answer escalated chats from the Admin Dashboard (Diagram 1).
